

Learning Prompts

Week of: May 9

Day	Subject	Prompt
Monday	Reading	Choose an editorial. Read it carefully. Decide which statements are facts, which are opinions, and whether the tone is conservative or liberal.
Tuesday	Science	Using the weather map and articles related to different climates around the country and world, identify the effect climate has on the way people live.
Wednesday	Math	Find photos that illustrate different types of lines (parallel, perpendicular, and askew) or different types of angles (right, acute, obtuse, and straight).
Thursday	Writing	Find examples of factual, interpretive, speculative, and promotional stories in the paper. Rewrite one of these types of stories into another type.
Friday	Civic/Social	Read an article in the newspaper about an individual who displayed honesty. What was the honest act? What were the consequences of the act? Would you have made the same decision?
